

HELPING HANDS SUPPLY DRIVE

It is once again conference time at WES, and with that comes an opportunity to thank and help our children's teachers through the Helping Hands supply drive.

What it is:

Posters labeled "**HELPING HANDS**" will be displayed outside of classrooms and in the lobby during conference time. Teachers write requests for supplies on sticky notes and place them on the posters. Parents are encouraged to take a sticky note, purchase the requested supply, and return the item within one week.

Why participate:

Teachers are provided with limited budgets and supplies for their classrooms. Many times, these do not cover supplies for special projects or items that aren't necessities. Often, teachers purchase these items out of pocket. By participating, you can show your appreciation and provide the classrooms with those little extras.

Participating is as easy as 1,2,3:

1. During conference time, choose a sticky note from the Helping Hands poster **located outside your child's classroom or on the easel in the lobby**. Please note that CORE, special education and title one teachers' requests will be on the poster in the lobby.
2. Purchase the supply requested.
3. Return the supply to school **within one week**. Items can be given directly to the teacher or placed in the Helping Hands box in the lobby. **Please attach the sticky note to the item to ensure delivery to the correct staff.**

THANK YOU in advance for your helping hands! It is the collaboration of parents, teachers and community that make WES so wonderful. Please contact Elise LaPlante eliselaplante23@gmail.com with questions or concerns.
